Hareruya Inc.

## Regarding Our Employee Testing Positive for COVID-19

On Wednesday, March 31st, it was confirmed that a family member who lives with one of our employee has tested positive for the COVID-19. Noticing this family member becoming sick, the employee has stayed away from work staying home, but on April 1st, PCR method testing confirmed positive. This employee is a background operation employee and does not attend customer service in the Hareruya Tournament Center (Takadanobaba, Tokyo).

With this case happening, in order to prevent the spread of infection and to minimize the risk, Hareruya will work with the health department to implement the following measures, with the highest priority given, ensuring the safety of employees and related parties.

1. From Wednesday, April 1st, we will perform a disinfection process at the Hareruya Tournament Center (Takadanobaba, Tokyo).
2. From Thursday, April 2nd, to Thursday, April 16, the Hareruya Tournament Center (Takadanobaba, Tokyo) will be closed.
3. We will investigate the employee's behavior history and employees who may have close contact with the employee.
4. Instruct employees who may be in heavy contact to stay at home and to check their health status.

We will continue to strive to prevent the spread of infection both inside and outside the company and ensure safety for all.
